For Sale Since January: Four Price Cuts and One Failed Contract

\$4,128

Est. Monthly Payment at \$474,900 (Asking), 5% Down

Comparable Sales, Adjusted to This Home · Shaded: Supported Range

Why This Offer

- The five closest Fernwood Park pool sales, adjusted to this home, center on about \$469,800.
- The market cooled since spring: homes now sell about 3.5% under asking, and eight in ten sellers pay part of buyers' costs.
- A vacant home, four price cuts, and a failed contract give you room to negotiate price or a seller credit.

What It Will Cost You

Seller's Tax Bill (What the Listing Shows)	\$2,731/yr
Your Tax Bill if City (Estimate), With Homestead	≈ \$7,800/yr
Monthly Payment (Conventional, 5% Down)	\$4,128/mo
Cash to Close (Conventional, 5% Down)	\$37,992

Estimates at \$474,900 (Asking); insurance is an estimate until there's a quote. Details in the report.

Check Before You Offer

The Roof

Get the permit and date; the new-roof claim left the listing

The April Contract

Ask why it fell apart and for any reports

1972 Systems

Wiring, drains, AC and pool equipment ages

Next Step: Get the listing agent's answers on the roof and the April contract, then write the offer.

Details, sources, and assumptions are in the full analysis that follows. This is a broker's opinion of value, not an appraisal.

The Home

List Price \$474,900	Price per Sq Ft \$257	Beds / Baths 4 / 2	Living Area 1,849 sq ft	Lot 0.22 acre
Built 1972, block	Pool Private, in-ground	Garage 2-car attached	HOA / CDD None / None	Flood Zone X (lower risk)

This is a renovated pool home: new kitchen with stone counters, updated baths, new flooring, and a resurfaced pool. The house is vacant and owned by a trust.

The Bottom Line

\$455,000–\$480,000

Supported value range · midpoint about \$467,500

The asking price of \$474,900 sits in the upper part of what recent sales support. It isn't out of line, but it isn't a bargain either. The two sales that support this price closed in the spring, when mortgage rates were lower and homes were selling faster. The recent sales and this home's own history point lower.

On the Market Since January

The current listing shows 36 days on the market. That number only counts the second listing. The full history:

Date	What Happened	Price
Jan 16, 2026	Listed for sale	\$483,900
Jan 22	Price cut	\$479,900
Jan 27	Taken off the market (off and on twice through Mar 5)	—
Feb 7	Price cut	\$474,500
Mar 5	Back on the market	—
Apr 11	Went under contract	\$474,500
May 17	Contract fell apart; taken off the market	—
May 21	Back on the market at a higher price	\$484,900
Jun 9	Listing canceled	—
Aug 17	Relisted as a new listing, which reset the day count	\$484,900
Aug 31	Price cut	\$478,900
Sep 16	Price cut	\$474,900

That adds up to 119 days of active marketing across two listings, spread over eight months, plus one failed contract. The market has had a long look at this home in the \$475,000–\$485,000 range, and no buyer has closed. That doesn't mean something is wrong with the house, but we need to know why the April contract fell apart before writing an offer.

Suggested Offer

Our recommendation for your offer, based on the comparable sales, the market, and this home's history. These three numbers are a negotiating plan, not a value opinion, so we'll adjust them together if anything changes.

Step	Price	Why
Opening Offer	\$455,000	The bottom of the supported range, backed by the comps. After eight months, four price cuts, and a failed contract, the seller has reason to negotiate rather than ignore it.
Target	\$460,000–\$465,000	Where recent sales and the typical 3.5% negotiation suggest this home settles.
Walk Away Above	\$470,000	About the median of the adjusted comps. Above it you'd be paying spring-market prices and risking a low appraisal you'd have to cover in cash.

Alternative: offer \$465,000 and ask for \$10,000 toward your closing costs. Price minus credit is the same as \$455,000 flat (the seller's percentage costs rise slightly with the price), and you'd need about \$9,200 less cash at closing than at \$455,000 with no credit (less than the credit, since the higher price raises the down payment and closing costs). See "Price vs. Seller Credit" in the cost section.

This assumes: the roof is documented as new, the April contract fell through for reasons unrelated to the house, and no other offers are competing. If any of those changes, we'll revisit the numbers before you sign.

Negotiating Points

- **There is room to negotiate.** The seller is paying to carry a vacant house, has cut the price four times, and has already lost one buyer. Mortgage rates are also higher now than when the spring sales happened.
- **Seller help with closing costs is normal right now.** Eight of the last ten sales in this area included seller-paid costs, typically around \$10,000. Asking for a credit instead of a lower price can reduce the cash you need at closing.
- **Watch the appraisal.** Only two homes in Fernwood Park have sold above this home's price per square foot, both renovated pool homes. An offer above about \$480,000 raises the chance the appraisal comes in low, which you would have to cover in cash or renegotiate.

What We Compared

We looked at every sale within one mile since April 2026 and chose the five closest matches: Fernwood Park pool homes of about 1,800–1,900 square feet, built in the 1970s. We included the ones that argue against a lower price. For each sale, we adjust for differences so it reflects what that home would have sold for if it were this one.

Adjustments used: about \$75 per square foot of size difference; \$30,000–\$45,000 for a home that hadn't been renovated to this level; \$5,000–\$10,000 for a noticeably larger or better lot; 1–2% off spring sales because prices have softened since. Seller-paid costs are subtracted from the sale price, since they reduce what the seller actually received. Condition adjustments are based on listing descriptions, not visits, so they are judgment calls.

622 Fernwood Park Blvd Adjusted: \$492,300

Sold \$505,500 · April 24, 2026 · 1,824 sq ft · 4/2 · pool · 0.29-acre corner lot · 0.2 mi

- The strongest sale for the seller's price. Fully renovated pool home, very similar to this one, paid in cash with no seller help.
- About the same size, so almost no adjustment. Its larger fenced corner lot, with room for a boat or RV, is worth a bit more: minus \$5,000.
- It sold in April, when rates were lower and homes were moving faster: minus about \$10,000.

516 Tallow Ct Adjusted: \$483,800

Sold \$495,000 · June 26, 2026 · 1,865 sq ft · 4/2 · pool · 1972 · 0.3 mi

- Same year and nearly the same size. Sold above asking in five days.
- It came with a documented 2020 roof, AC, electrical, and windows. We don't yet know the age of this home's AC, electrical, or windows, so that home gets a small edge: minus \$5,000.
- Early summer sale: minus about \$5,000 for the market since then.

745 Little Heron Cir Adjusted: \$469,800

Sold \$427,000 · August 20, 2026 · 1,871 sq ft · 4/2 · pool · 0.5 mi

- The most recent pool-home sale in Fernwood Park. It was listed at \$450,000 and took 60 days to sell.
- Described as well maintained but not renovated. Adjusting up for the renovation this home has: plus \$45,000.

602 Thrasher Ln Adjusted: \$438,400

Sold \$429,000 · April 27, 2026 · 1,849 sq ft · 4/2 · pool · 0.1 mi

- Same size and likely the same floor plan, one street over.
- The seller paid \$12,000 of the buyer's costs, so the seller actually received about \$417,000.
- Partly updated (new appliances, stone counters) but not a full renovation: plus \$30,000. Spring sale: minus about \$8,600.

621 Little Heron Rd Adjusted: \$436,200

Sold \$465,000 · June 18, 2026 · 1,865 sq ft · 4/2 · pool · 0.41-acre canal lot · 0.4 mi

- A renovated pool home with new windows. It was listed at \$484,900, almost exactly this home's original price, and sold for \$465,000.
- The seller paid about \$13,000 of the buyer's costs, so the seller netted about \$452,000.
- It sits on nearly twice the land, backing onto a canal: minus \$10,000. Early summer sale: minus about \$4,500.

Sale	Sold For	Seller Paid	Adjusted Value
622 Fernwood Park Blvd	\$505,500	\$0	\$492,300
516 Tallow Ct	\$495,000	\$0	\$483,800
745 Little Heron Cir	\$427,000	\$500	\$469,800
602 Thrasher Ln	\$429,000	\$12,000	\$438,400
621 Little Heron Rd	\$465,000	\$13,071	\$436,200
This Home (Asking)	\$474,900	—	Range \$455K–\$480K

The adjusted values run from about \$436,000 to \$492,000, with a median of \$469,800. We lean toward the middle because the two highest sales are the best condition matches but come from a stronger market, while the lowest two needed the biggest adjustments. Other Fernwood Park sales support the same picture: 607 Green Bramble Blvd (a 2014 renovation, pool) sold for \$427,000 in April, and 623 Bellspur Ln (renovated, no pool) sold for \$435,000 in May.

The Whole Neighborhood at a Glance

Every sale within one mile since April and every home for sale now, plotted by size and price.

One home far larger or smaller than this one is left off the chart.

At \$474,900, this home is asking about \$32,000 more than its size alone predicts.

The dashed line shows what homes here sell for based on size alone. Homes above it sold for more, usually because of condition, updates or the lot. Its condition and features have to justify the difference.

The trend line isn't a value estimate for this house. It lumps dated homes and homes without pools together with renovated ones, and size explains most of the difference in sale prices here. The renovated comparable sales sit well above it, and only two Fernwood Park sales of similar size closed higher than this asking price. Meanwhile, 644 Quillwood, a renovated home of the same size without a pool, is for sale well below.

What Else Is Out There

These are the homes this seller is competing with right now. Several have been sitting, and most have cut their price.

Address	Status	Price	Sq Ft	Pool	Days	Notes
644 Quillwood Dr	For sale	\$400,000	1,849	No	91	Fully renovated, same size, 2.5 baths. Cut from \$449,900. Even adding about \$25,000 for a pool, it's a strong alternative.
394 Tansy Ln	For sale	\$565,000	1,943	Yes	57	Updated, new roof and windows, solar. Not selling at this level.
626 Primrose Ln	For sale	\$470,000	2,400	Yes	302	Larger but dated. Cut from \$499,000; motivated seller.
656 Little Heron Rd	For sale	\$449,000	2,400	Yes	51	5 bedrooms, light fixer, tri-level.
513 Birchcrest St	For sale	\$490,000	2,400	No	63	Remodeled 2017, replumbed and rewired.
412 Calloway Ave	Under contract	\$454,900	1,458	Yes	9	Renovated and went under contract in 9 days. A renovated pool home priced in the \$450s moves fast.
400 W Kumquat St	Under contract	\$449,000	1,682	Yes	14	Dated, large lot, 0.7 mi.
621 Elderberry Ln	Expired	\$389,999	1,849	No	114	Same size in Fernwood Park. Started at \$425,000 and never sold.

The Market Right Now

We looked at 35 sales within one mile of this home between April and mid-September 2026. The market has cooled noticeably since spring.

	April – June	July – Mid-Sept
Homes Sold	25	10
Median Sale Price	\$465,000	\$461,000
Typical Sale vs. Original Asking Price	100%	96.5%
Typical Days to Go Under Contract	9	18
Sales with Seller-Paid Buyer Costs	56%	80%
Typical Seller-Paid Amount	\$8,600	\$10,300

- **Homes are selling for about 3.5% under their original asking price**, compared with full price in the spring. Sellers are now expecting to negotiate.
- **Inventory is balanced.** There are 15 homes for sale in this area, and at the summer pace of sales that's 3.5 months of supply. That's neither a buyer's market nor a seller's market, but it has shifted toward buyers. Six in ten current listings have already cut their price.
- **Mortgage rates are up.** The national average 30-year rate was 6.95% the week of September 17, versus roughly 6.2–6.4% during the spring sales. That's the main reason the spring prices are harder to repeat now.
- **Price per square foot.** Fernwood Park homes have sold for a median of about \$231 per square foot since April. This home is asking \$257. That's supportable for a renovated pool home, but only two Fernwood Park sales have been higher.

What It Actually Costs

Property Taxes Will Be Much Higher than the Listing Shows

The listing shows \$2,731 in taxes. That's the 2024 bill, based on a previous owner's assessment. In Florida, a home's taxable value is reset when it sells, so your bill will be based on roughly what you pay. You also get to file for your own homestead exemption.

Estimate at a \$474,900 Purchase (Asking), With Homestead	Yearly	Monthly
Seller's Current Bill (2024)	\$2,731	\$228
Your Bill if the Home Is in Unincorporated Seminole County	≈ \$5,900	≈ \$494
Your Bill if the Home Is Inside Casselberry City Limits	≈ \$7,800	≈ \$653

Based on 2025 final millage rates (13.6790 unincorporated; 18.1808 City of Casselberry). We still need to confirm which applies; the property appraiser's record shows it. These estimates assume the county values the home at the purchase price, and it often values homes somewhat lower, so treat these as the high end. Garbage and other flat assessments aren't included. File for homestead by March 1 of the year after you close.

Your first year matters. Your lender will likely set up your escrow using the seller's lower bill. When your own higher bill arrives, your monthly payment can rise to cover the difference. Budget for the higher number from the start.

Insurance

The main things that drive the cost for this house are the roof's age, the 1972 construction (especially the wiring and plumbing), wind-mitigation features, and the pool. The flood zone (X) is outside the high-risk area, so the lender won't require flood insurance, but Citizens does on many policies (and on every Citizens policy from January 2027): get a flood quote with the homeowners quote. Get a real quote during your inspection period, after the 4-point and wind-mitigation inspections. The payment estimates below use \$3,600 a year, an estimate, not a quote.

Estimated Monthly Payment

Three common ways to finance this home at the full asking price. Your lender will give you exact numbers.

Per Month, at \$474,900 (Asking)	Conventional, 5% Down	FHA, 3.5% Down	Conventional, 20% Down
Cash for Down Payment	\$23,745	\$16,622	\$94,980
Closing Costs (Estimate)	\$14,247	\$14,247	\$14,247
Cash to Close	\$37,992	\$30,868	\$109,227
Principal and Interest	\$2,986	\$3,087	\$2,515
Property Taxes (City, With Homestead, Estimate)	\$653	\$653	\$653
Homeowners Insurance (Estimate: Get a Quote)	\$300	\$300	\$300
Flood Insurance	Get a Quote	Get a Quote	Get a Quote
Mortgage Insurance	\$188	\$210	\$0
HOA / CDD	\$0	\$0	\$0
Estimated Monthly Total	\$4,128	\$4,250	\$3,468
If Unincorporated Instead	\$3,969	\$4,091	\$3,309

Assumes a 30-year fixed rate of 6.95%, insurance of \$3,600 a year, private mortgage insurance of about 0.5% a year at 5% down (an estimate by down payment: less with more down, none from 20%), and FHA mortgage insurance of 0.55% a year with the 1.75% upfront premium added to the loan. These are estimates, not loan quotes. Every \$10,000 off the price lowers the payment by roughly \$80 a month. Cash to close is the down payment plus closing costs of 3% of the price, as given, before any seller credit. The property tax uses the City bill, the higher of the two, until the parcel's taxing district is confirmed. Flood zone X: a lender may not require flood insurance, but a Citizens policy on a home with a dwelling replacement cost of \$400,000 or more must carry flood insurance, and from January 1, 2027 every Citizens policy must (s. 627.351(6) (aa)). Get a quote; the total leaves it out until then.

Price vs. Seller Credit

The seller cares about what they net; you may care more about the cash you need at closing. These three offers have about the same price minus credit but split it differently between price and a credit toward your closing costs.

Same Price Minus Credit, Split Differently	\$455,000	\$460,000 + \$5,000	\$465,000 + \$10,000
Purchase Price	\$455,000	\$460,000	\$465,000
Seller Credit Toward Your Costs	—	\$5,000	\$10,000
Price Minus Credit	\$455,000	\$455,000	\$455,000
Loan Amount	\$432,250	\$437,000	\$441,750
Cash to Close (Down Payment + Closing Costs – Credit + Any Broker Fee You Pay)	\$36,400	\$31,800	\$27,200
Monthly Payment	\$3,964	\$4,005	\$4,046
Extra per Month vs. No Credit	—	+\$41	+\$82
Years for the Extra Payment to Add Up to the Cash Saved	—	about 9 years	about 9 years
Most a Seller May Contribute (Conventional, 5% Down)	\$13,650	\$13,800	\$13,950
Room Below the Median Adjusted Comp (\$469,800)	\$14,800	\$9,800	\$4,800

Closing costs estimated at 3% of the price, as given. A seller credit can only pay actual closing costs, prepaid items, and escrows; any part above those costs is lost, and it can never be taken as cash. Seller-contribution limits: conventional 3% of price below 10% down, 6% at 10–25% down, 9% at 25% or more; FHA 6%; VA 4% in concessions plus normal closing costs. Confirm with your lender. The seller doesn't net exactly the same: each extra \$10,000 of price also costs them about \$70 in transfer tax, plus their listing fee's share.

Each \$5,000 of credit saves you about \$4,600 at closing and costs about \$41 a month. That's worth it if cash is tight or you might sell within a decade, and less so if you have savings to spare and plan to stay long term. All three prices sit below the median adjusted comp, so the appraisal should support any of them.

Or use the credit to lower your payment instead. A 2-1 rate buydown at \$465,000 would cost about \$10,300, more than the \$10,000 credit, so the seller would need to contribute more or you would cover the difference.

Things to Look Into

- The roof.** The first version of this listing described a brand-new roof. The current listing doesn't mention the roof at all. Roof age is the biggest factor in insuring a Florida home, so we want the permit and date in writing.
- Why the April contract fell apart.** If a previous buyer walked away over an inspection or appraisal problem, we want to know what it was.
- Wiring and plumbing from 1972.** Homes of this age in Fernwood Park often have aluminum branch wiring and original cast-iron drains. Insurers ask about both. Add a sewer-line camera inspection to the general inspection.
- Permits for the renovation.** Confirm the kitchen, bath, and any electrical or plumbing work was permitted. Unpermitted work can cause problems with insurance and future resale.
- The fourth bedroom.** Check that the property appraiser's record shows four bedrooms, and if a room was converted, confirm it was permitted.
- AC age and pool equipment.** Neither is listed. Also confirm the pool has a compliant safety barrier.
- "As-Is" doesn't mean no inspection.** The As-Is contract still gives you an inspection period in which you can cancel for any reason. It only means the seller isn't committing to repairs.

Questions for the Listing Agent

1. When was the roof replaced? Can you share the permit and a copy of the roof, 4-point, or wind-mitigation report?
2. Why did the April contract fall apart, and were there inspection or appraisal reports from that buyer?
3. How old are the AC and the pool equipment? Does the home have aluminum branch wiring, and what brand is the electrical panel?
4. Were the kitchen, bathroom, and any electrical or plumbing updates permitted?
5. Is the fourth bedroom original to the house?
6. Is the seller open to contributing toward the buyer's closing costs?

How This Was Prepared

This analysis uses the Stellar MLS listing and full price history for 517 Larkwood Ave, a Stellar MLS search of single-family homes within one mile (sales from April 6 to September 17, 2026, plus current active, pending, and expired listings), Seminole County Property Appraiser 2025 final millage rates, and the Freddie Mac weekly mortgage rate survey for September 17, 2026.

This is a broker's opinion of value based on comparable sales. It is not an appraisal. A lender's appraiser works under different standards and may reach a different number. Tax, insurance, and payment figures are estimates for planning, not quotes, so confirm them with your lender and insurance agent. Market conditions change, so this analysis should be refreshed if you haven't made an offer within a few weeks.
