Net = after all costs & holding, as offered. Downside = if the appraisal and inspection go badly. Walk = days the buyer can still walk away. With the seller's written authorization, other buyers' agents are told the seller is moving forward with another offer (NAR Standard of Practice 1-15); nothing is declined until the seller approves.

All figures are estimates for discussion only. Documentary Stamp Tax on the Deed 0.70%, seller pays (Florida default); Owner's title policy paid by the seller (promulgated rate, Florida default); Title company fees \$1,145 (Florida default; the title company's quote wins). The tax proration assumes \$6,900/yr paid in arrears; holding costs assume \$1,750/mo. The downside case assumes the appraisal lands at the top of the value range (CMA high) and an inspection credit of about 0.7% of price when the buyer has an inspection period. Actual costs come from the title company's settlement statement. Certainty scores reflect the listing agent's professional judgment, not a guarantee of performance.
