\$424,812

Net After Holding Costs at \$469,900, Before Mortgage Payoff

What Comparable Homes Sold For, Adjusted to Your Home · Shaded: Supported Range

Why This Price

- The five closest Fernwood Park pool sales, adjusted to your home, center on about \$469,800.
- The market cooled since spring: homes now sell about 5% under asking, and nearly nine in ten sellers help with buyer costs.
- Well-priced renovated pool homes nearby are selling fast; overpriced ones are sitting.

Your Pricing Options

List At	Time to Contract	Expected Sale	Est. Net*
\$479,900	2–4 months	\$466,000	\$423,768
\$469,900 ★	3–6 weeks	\$466,000	\$424,812
\$459,900	1–3 weeks	\$455,000	\$419,796

*Before mortgage payoff, after estimated holding costs until closing. Estimates, not guarantees.

Before We List

Document the Roof

Permit and date, ready for buyers and insurers

Pre-Listing Inspection

Plus 4-point and wind-mitigation reports

Gather Permits

Kitchen, bath, electrical, and plumbing work

Next Step: Review this plan together, sign the listing agreement, and go live in about two weeks.

Details, sources, and assumptions are in the full analysis that follows. This is a broker's opinion of value, not an appraisal.

The Home

Beds / Baths 4 / 2	Living Area 1,849 sq ft	Lot 0.22 acre	Built 1972, block	Pool Private, in-ground
Garage 2-car attached	HOA / CDD None / None	Flood Zone X (lower risk)	Current Taxes \$2,731 a year	Recent Updates Kitchen, baths, floors, roof

A four-bedroom block pool home in Fernwood Park with a renovated kitchen (new cabinets, stone counters, stainless appliances), remodeled baths, new flooring, fresh paint, a new roof and water heater, and a resurfaced pool, as described by you. This analysis estimates what the home is worth in today's market, recommends a list price, and shows what each pricing choice is likely to net you.

The Bottom Line

List at \$469,900

Recommended List Price · Supported Value Range \$455,000 – \$480,000

Recent sales of similar Fernwood Park pool homes, adjusted for their differences from yours, support a value of roughly \$455,000 to \$480,000. We recommend launching at \$469,900, the middle of what those sales support. It leaves room for the negotiating that is normal right now, and it presents the home as fairly priced during its first few weeks on the market, when buyer attention is highest. The two sales that would support a higher price closed in the spring, when mortgage rates were lower and homes sold faster than they do now.

What This Means for You

- **Expect to negotiate.** Homes nearby that sold since July closed at about 95.2% of their original asking price, and nearly nine in ten sellers paid part of the buyer's closing costs, typically about \$12,000. A likely sale price at \$469,900 is in the low-to-mid \$460,000s.
- **The first three weeks matter most.** A new listing gets its biggest wave of showings right away. If it is priced where buyers expect, that wave turns into offers; if not, the home starts to look stale and the price cut comes later, from a weaker position.
- **Watch the appraisal.** Only two Fernwood Park homes of similar size have sold above \$480,000, both in the spring. A contract well above that level would risk a low appraisal and a renegotiation.
- **Documentation is worth money.** Your updates are the reason this home can sell near the top of the neighborhood. Permits and dates for the roof and the renovation turn them from claims into value a buyer and an appraiser can rely on.

What Comparable Homes Sold For

We looked at every sale within one mile since April 2026 and chose the five closest matches: Fernwood Park pool homes of about 1,800–1,900 square feet, built in the 1970s. Each is adjusted for its differences from your home, so it reflects what that home would have sold for if it were yours.

Adjusted for size (\$1,200 to \$1,800), lot (\$5,000), market changes since each sale (1% a quarter off sales before July), roof and systems (\$5,000), condition and updates (\$30,000 to \$45,000), view or water (\$10,000) and seller credits (taken off each sale price). Adjustments used: about \$75 per square foot of size difference; \$30,000–\$45,000 for a home that hadn't been renovated to this level; \$5,000–\$10,000 for a noticeably larger or better lot; 1–2% off spring sales because prices have softened since. Seller-paid costs are subtracted from the sale price, since they reduce what the seller actually received. Condition adjustments are based on listing descriptions, not visits, so they are judgment calls.

622 Fernwood Park Blvd **Adjusted: \$493,900**

Sold \$505,500 · April 24, 2026 · 1,824 sq ft · 4/2 · pool · 0.29-acre corner lot · 0.2 mi

- The highest recent sale for a home like yours: a fully renovated pool home paid in cash, with no seller help.
- About the same size, so almost no adjustment. Its larger fenced corner lot, with room for a boat or RV, is worth a bit more than yours: minus \$5,000.
- It sold in April, when rates were lower and homes were moving faster: minus about \$8,400.

516 Tallow Ct **Adjusted: \$484,000**

Sold \$495,000 · June 26, 2026 · 1,865 sq ft · 4/2 · pool · 1972 · 0.3 mi

- Same year and nearly the same size. Sold above asking in five days.
- It came with a documented 2020 roof, AC, electrical, and windows. Until we have your records for the AC, electrical, and windows, it gets a small edge: minus \$4,800.
- Early summer sale: minus about \$4,800 for the market since then.

745 Little Heron Cir **Adjusted: \$469,800**

Sold \$427,000 · August 20, 2026 · 1,871 sq ft · 4/2 · pool · 0.5 mi

- The most recent pool-home sale in Fernwood Park. It was listed at \$450,000 and took 60 days to sell.
- Described as well maintained but not renovated. Adjusting up for the renovation your home has: plus \$45,000.

602 Thrasher Ln **Adjusted: \$440,200**

Sold \$429,000 · April 27, 2026 · 1,849 sq ft · 4/2 · pool · 0.1 mi

- Same size and likely the same floor plan, one street over.
- The seller paid \$12,000 of the buyer's costs, so the seller actually received about \$417,000.
- Partly updated (new appliances, stone counters) but not a full renovation: plus \$30,000. Spring sale: minus about \$6,800.

621 Little Heron Rd **Adjusted: \$435,900**

Sold \$465,000 · June 18, 2026 · 1,865 sq ft · 4/2 · pool · 0.41-acre canal lot · 0.4 mi

- A renovated pool home with new windows. It was listed at \$484,900 and sold for \$465,000.
- The seller paid about \$13,000 of the buyer's costs, so the seller netted about \$452,000.
- It sits on nearly twice the land, backing onto a canal: minus \$10,000. Early summer sale: minus about \$4,800.

Sale	Sold For	Seller Paid	Adjusted Value
622 Fernwood Park Blvd	\$505,500	\$0	\$493,900
516 Tallow Ct	\$495,000	\$0	\$484,000
745 Little Heron Cir	\$427,000	\$500	\$469,800
602 Thrasher Ln	\$429,000	\$12,000	\$440,200
621 Little Heron Rd	\$465,000	\$13,071	\$435,900
Your Home (Recommended List)	\$469,900	—	Range \$455K–\$480K

The adjusted values run from about \$436,000 to \$492,000, with a median of \$469,800. The two highest are the closest matches to your home's condition but sold in a stronger spring market; the two lowest needed the largest adjustments. Other Fernwood Park sales support the same picture: 607 Green Bramble Blvd (a 2014 renovation, pool) sold for \$427,000 in April, and 623 Bellspur Ln (renovated, no pool) sold for \$435,000 in May.

Where Your Home Fits in the Neighborhood

Every sale within one mile since April and every home for sale now, plotted by size and price. The renovated comparable sales sit well above the dashed line, and at the recommended price your home sits among them, below the two spring sales at the top.

One home far larger or smaller than yours is left off the chart.

At \$469,900, your home sits about \$27,000 above what its size alone predicts.

The dashed line shows what homes here sell for based on size alone. Homes above it sold for more, usually because of condition, updates or the lot. Your home's condition and features have to justify the difference.

What Buyers Will Compare You To

These homes are for sale or just went under contract nearby. A buyer touring yours will likely see several of them. The ones that matter most: 644 Quillwood is renovated and the same size, without a pool, at \$400,000; and 412 Calloway, a renovated pool home at \$454,900, went under contract in nine days.

Address	Status	Price	Sq Ft	Pool	Days	Notes
644 Quillwood Dr	For sale	\$400,000	1,849	No	91	Fully renovated, same size, 2.5 baths. Cut from \$449,900. Even adding about \$25,000 for a pool, it's a strong alternative.
394 Tansy Ln	For sale	\$565,000	1,943	Yes	57	Updated, new roof and windows, solar. Not selling at this level.
626 Primrose Ln	For sale	\$470,000	2,400	Yes	302	Larger but dated. Cut from \$499,000; motivated seller.
656 Little Heron Rd	For sale	\$449,000	2,400	Yes	51	5 bedrooms, light fixer, tri-level.
513 Birchcrest St	For sale	\$490,000	2,400	No	63	Remodeled 2017, replumbed and rewired.
412 Calloway Ave	Under contract	\$454,900	1,458	Yes	9	Renovated and went under contract in 9 days. A renovated pool home priced in the \$450s moves fast.
400 W Kumquat St	Under contract	\$449,000	1,682	Yes	14	Dated, large lot, 0.7 mi.
621 Elderberry Ln	Expired	\$389,999	1,849	No	114	Same size in Fernwood Park. Started at \$425,000 and never sold.

The Market Right Now

We looked at 33 sales within one mile of this home between April and mid-September 2026. The market has cooled noticeably since spring.

	April–June	July–September
Homes Sold	24	9
Typical Sale Price	\$467,500	\$461,000
Typical Sale vs. Original Asking Price	98.7%	93.9%
Typical Days to Go Under Contract	8	22
Sales with Seller-Paid Buyer Costs	50%	89%
Typical Seller-Paid Amount	\$8,250	\$12,100

- **Buyers are negotiating again.** Since July, homes nearby sold for about 5% under their original asking price and took almost three times as long to go under contract as in the spring.
- **Inventory is balanced.** There are 15 other homes for sale nearby, about 3.5 months of supply at the summer pace, and more than half have already cut their price.
- **Mortgage rates are up.** The 30-year average was 6.95% the week of September 17, versus roughly 6.2–6.4% during the spring sales. Buyers' budgets stretch less than they did in April.
- **Timing.** Fewer buyers shop between Thanksgiving and New Year's. Launching in the next few weeks gives the home its best window before the holidays.

Choosing a List Price

Three realistic options. Expected sale prices and timelines are our estimates from recent sales, not guarantees. All three are likely to net within a few thousand dollars of each other, so the real difference is time and risk.

Strategy	Time to Contract	Expected Sale	Estimated Net*	What to Expect
List at \$479,900	2–4 months	\$466,000	\$423,768	Tests the top of the range; likely needs a price cut before an offer
List at \$469,900	3–6 weeks	\$466,000	\$424,812	Priced at the middle of recent adjusted sales; room to negotiate
List at \$459,900	1–3 weeks	\$455,000	\$419,796	Aims for competing offers; depends on them materializing

*Before paying off any mortgage, after estimated holding costs until closing (the net sheet below shows them). The \$459,900 option assumes a smaller seller credit (\$5,000) because competing offers usually ask for less help; if they don't materialize, its net falls to about the others' level or below. Expected sales are our estimates of where each price is likely to end up, from what recent buyers nearby paid. At \$479,900 we expect about the same sale as at the recommended price: a home priced above the range usually sells after a cut, so the higher price costs time rather than adding to the sale.

Estimated Net Proceeds

What each option is likely to leave you after the costs a Florida seller typically pays at closing.

Estimated at Closing	List at \$479,900	List at \$469,900	List at \$459,900
Expected Sale Price	\$466,000	\$466,000	\$455,000
Listing Brokerage (2.5%)	–\$11,650	–\$11,650	–\$11,375
Buyer's Agent Compensation (2.5%)	–\$11,650	–\$11,650	–\$11,375
Documentary Stamp Tax on the Deed (0.70%)	–\$3,262	–\$3,262	–\$3,185
Owner's Title Insurance	–\$2,405	–\$2,405	–\$2,350
Title Company Fees	–\$1,145	–\$1,145	–\$1,145
Seller-Paid Buyer Costs	–\$10,000	–\$10,000	–\$5,000
Estimated Net Before Mortgage Payoff	\$425,888	\$425,888	\$420,570
Holding Costs Until Closing	–\$2,120	–\$1,076	–\$774
Net After Holding Costs	\$423,768	\$424,812	\$419,796

Holding costs: about \$530 a month (insurance and utilities; no loan interest, since no mortgage payoff was given; property tax is not included) for each option's time to contract plus 1 month to close. Commissions are negotiable and not set by law. Not included: this year's property tax proration. Taxes here are paid in arrears, so the seller credits the buyer from Jan 1; add the tax bill and the expected closing date to include it. Title company fees are typical local charges (settlement fee \$700, title search \$250, municipal lien search \$125, recording \$70); the title company's quote replaces them. Not included: your mortgage payoff, your share of this year's property taxes (about \$228 for each month of the year before closing, credited to the buyer), and any repairs agreed after inspection. While the home is on the market you keep paying the mortgage, taxes, insurance, and utilities, which is the real cost of a slower strategy.

What Your Price Means to Buyers

Buyers shop by monthly payment. Each \$10,000 in price changes a typical buyer's payment by about \$80 a month and the down payment by \$500.

List Price	Buyer's Down Payment (5%)	Buyer's Estimated Monthly Payment
\$479,900	\$23,995	\$4,169
\$469,900	\$23,495	\$4,087
\$459,900	\$22,995	\$4,005

Conventional loan, 5% down, 6.95% 30-year fixed (Freddie Mac average, week of September 17, 2026), Casselberry property taxes with homestead, \$3,600 a year insurance (estimate), and 0.5% mortgage insurance. Flood zone X: a lender may not require flood insurance, but a Citizens policy on a home with a dwelling replacement cost of \$400,000 or more must carry flood insurance, and from January 1, 2027 every Citizens policy must (s. 627.351(6)(aa)). Get a quote; the total leaves it out until then.

Before We List

These steps cost little and remove the questions that slow Florida buyers down or cost sellers money at the negotiating table.

- Document the roof.** Roof age decides whether a buyer can insure the home, so a permitted new roof is one of the listing's most valuable facts.
- Get a pre-listing inspection, 4-point, and wind-mitigation report.** Buyers can get insurance quotes before they offer, and you learn about any issue before a buyer uses it to renegotiate.
- Gather the renovation permits.** Kitchen, bath, electrical, and plumbing work. Unpermitted work can surface during the buyer's due diligence and delay or derail a sale.
- Make it easy to show.** Lockbox access with short notice gets the most buyers through in the first weeks.
- Decide on a seller-credit budget now.** Most recent sales included one. A credit toward a temporary rate buydown lowers a buyer's payment far more in the first years than the same amount off the price.
- Agree on a review point.** Steady showings but no offer after about three weeks means we revisit the price.

What We Need from You

1. The roof and renovation permits, plus any existing 4-point or wind-mitigation report.
2. The age of the AC, water heater, and pool equipment, and the dates of the kitchen, bath, and flooring work.
3. The electrical panel brand, whether the home has aluminum branch wiring, and whether the plumbing has been updated. Both are common questions for homes built in the early 1970s.
4. Anything you know that affects the home's value or condition, such as past leaks, insurance claims, or repairs.
Florida law requires sellers to disclose known material defects.
5. Your estimated mortgage payoff, so we can turn the net estimates into cash at closing.
6. When you would like to close, and whether the home will be occupied or vacant during showings.

How This Was Prepared

This analysis uses the property details and tax bill you provided, a Stellar MLS search of single-family homes within one mile (sales from April 6 to September 17, 2026, plus current listings), and the Freddie Mac rate survey for September 17, 2026.

Expected sales: each option's list price times an assumed 97.0% (what homes typically get against their final asking price after seller-paid costs), plus that option's seller credit, rounded to \$500, and never below the bottom of the supported range, since the comps are already net of seller credits. At \$479,900, the expected sale is the recommended option's: a higher list price buys time on the market, not a higher sale.

This is a broker's opinion of value based on comparable sales. It is not an appraisal. Expected sale prices, timelines, costs, and net proceeds are estimates for planning, not guarantees; your closing agent will provide exact figures. Condition adjustments are based on listing descriptions of the comparable homes and on the updates you described, and will be refined once we see your records. Market conditions change, so this analysis should be refreshed if the home is not listed within a few weeks.
