Where the Sale Price Goes

- Property tax prorated from Jan 1 to the day before closing ($6,900 bill less the 4% early-payment discount), assuming this year's bill is still unpaid at closing; if the seller pays it first, the buyer credits back the rest of the year instead.
- Title company fees are typical Florida charges; the title company's quote replaces them.
- The HOA estoppel fee is a typical Florida charge; the association's fee schedule replaces it.
- Commissions are negotiable and not set by law.
- Payoffs are estimates until the lender's payoff letter, which adds interest through the closing date.
- Not included: liens or judgments, HOA dues owed or prorated, and utility bills.
- These proceeds are before any income tax on the sale; a CPA can estimate it.

Estimates only, not legal, lending or tax advice. The title company's settlement statement gives the final figures.
