Buyer Summary
Prepared September 22, 2026

517 Larkwood Ave

Casselberry, FL 32707 | Fernwood Park | Seminole County | MLS X9033709

4 bed | **2 bath** | **1,849 sq ft** | **pool** | **built 1972**

SUGGESTED OPENING OFFER

$449,000

Target $454K–$457K · Walk Away Above $470,000
Value Range **$455K–$480K** · Asking **$474,900**

Open at the bottom of what recent sales support: the home has sat for months and the price keeps coming down, which gives you room to negotiate.

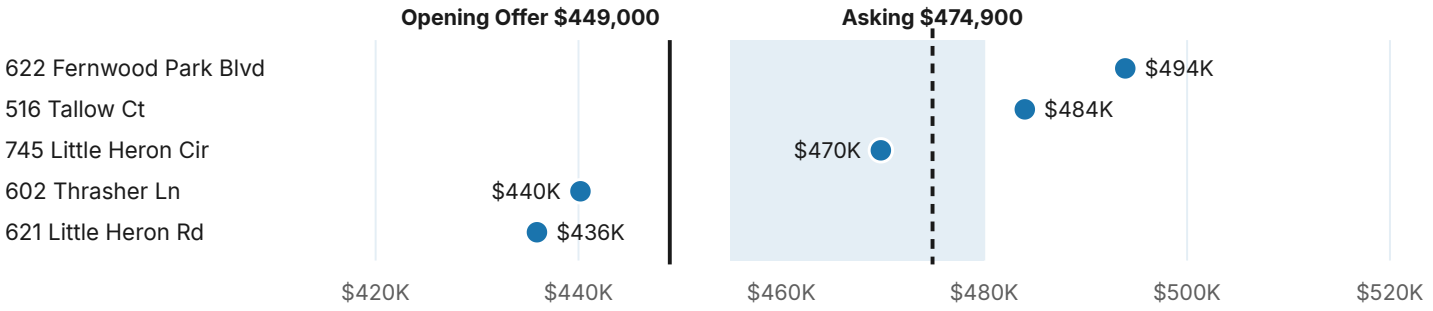

$469,800
Median of the Comparable Sales, Adjusted to This Home

93.9%
Sale Price vs. Original Asking for Nearby Sales Since July

119 days
Days Actively for Sale Since January, 4 Price Cuts

$4,127
Est. Monthly Payment at $474,900 (Asking), 5% Down

Comparable Sales, Adjusted to This Home · Shaded: Supported Range

Why This Offer

- The closest Fernwood Park pool sales, adjusted to this home, center near the middle of the range.
- The market cooled since early in the year: homes now sell under their original asking price, and most sellers pay part of buyers' costs.
- Repeated price cuts and a failed contract give you room to negotiate price or a seller credit.

What It Will Cost You

Seller's Tax Bill (What the Listing Shows)	$2,731/yr
Your Estimated Tax Bill (City, With Homestead)	**≈ $7,838/yr**
Monthly Payment (Conventional, 5% Down)	$4,127/mo
Cash to Close (Conventional, 5% Down)	$37,992

At $474,900 (Asking). The assumptions behind these figures are in the notes at the end of the cost section.

Check Before You Offer

The Roof
Get the permit and date; the new-roof claim left the listing

The Failed Contract
Ask why it fell apart and for any reports

Original Systems
Wiring, drains, AC and pool equipment ages

Next Step: Get the listing agent's answers on the roof and the failed contract, then write the offer.

Details, sources and assumptions are in the full analysis that follows.

The Home

List Price	Price per Sq Ft	Beds / Baths	Living Area	Lot
$474,900	**$257**	**4 / 2**	**1,849 sq ft**	**0.22 acre**
Built	Pool	Garage	HOA / CDD	Flood Zone
1972, block	**Private, in-ground**	**2-car attached**	**None / None**	**X (lower risk)**

This is a renovated pool home: new kitchen with stone counters, updated baths, new flooring, and a resurfaced pool.

The Bottom Line

$455,000–$480,000

Supported value range · midpoint about $467,500

Asking $474,900 sits near the top of this range. The median of the comparable sales, adjusted to this home, is $469,800.

The two sales that support the asking price closed earlier in the year, when mortgage rates were lower and homes were selling faster. The recent sales and this home's own history point lower, so the range leans toward them.

4 Price Cuts Since January

First listed January 16, 2026: 119 days actively for sale across two listings, counting only the days it was for sale, not off the market or under contract. Since then: 4 price cuts totaling $19,400 (4.0% of the first asking price), 1 price increase and 1 failed contract. Asking now is $400 above the $474,500 it was listed at when it last went under contract.

Date	What Happened	Price
Jan 16	Listed for sale	$483,900
Jan 22	Price cut	$479,900
Jan 27	Taken off the market (off and on twice)	—
Feb 7	Price cut	$474,500
Mar 5	Back on the market	—
Apr 11	Went under contract	$474,500
May 17	Contract fell apart; taken off the market	—
May 21	Back on the market at a higher price	$484,900
Jun 9	Listing canceled	—

Date	What Happened	Price
Aug 17	Relisted as a new listing, which reset the day count	$484,900
Aug 31	Price cut	$478,900
Sep 16	Price cut	$474,900

The market has had a long look at this home at about today's price, and no buyer has closed. That doesn't mean something is wrong with the house, but we need to know why the last contract fell apart before writing an offer.

Suggested Offer

Our recommendation for your offer, from the comparable sales, the market and this home's history. These three numbers are a negotiating plan, not a value opinion, so we'll adjust them together if anything changes.

Offer Posture: Leverage. The seller has reason to negotiate, so the plan opens low and leaves room to come up in the counteroffers.

Step	Price	Why
Opening Offer	**$449,000**	**Below the supported range: low enough to test the seller, close enough to the comps to draw a counter rather than silence.**
Target	$454,000–$456,500	A quarter of the way from the opening offer to the walk-away, the least the plan moves up from its opening: recent sales settled against their asking price lower than that.
Walk Away Above	$470,000	The median of the adjusted comps. Above it you'd be paying earlier prices and risking a low appraisal you'd have to cover in cash.

Alternative: offer $459,000 and ask for $10,000 toward your closing costs. Price minus credit is the same as $449,000 flat (the seller's percentage costs rise slightly with the price), and you'd need about $9,200 less cash at closing than at $449,000 with no credit (less than the credit, since the higher price raises the down payment and closing costs). See Price vs. Seller Credit in the cost section.

This assumes: the roof is documented as new, the failed contract fell through for reasons unrelated to the house, and no other offers are competing. If any of those changes, we'll revisit the numbers before you sign.

Negotiating Points

- **There is room to negotiate.** The seller has cut the price four times, and has already lost one buyer. Mortgage rates are also higher now than when the earlier sales happened.
- **Seller help with closing costs is normal right now.** Most recent sales in this area included seller-paid costs. Asking for a credit instead of a lower price can reduce the cash you need at closing.
- **Watch the appraisal.** Only a few homes in Fernwood Park have sold above this home's price per square foot, all renovated pool homes. An offer near the top of the range raises the chance the appraisal comes in low, which you would have to cover in cash or renegotiate.

What We Compared

We looked at every sale within a mile and chose the closest matches: Fernwood Park pool homes of about this size, built in the same era. We included the ones that argue against a lower price, and adjusted each sale to what it would have brought as this home. The five comparable sales closed from Apr 24, 2026 to Aug 20, 2026, one of them since July, all within a mile of this home.

Adjusted for size ($1,200 to $1,800); lot ($5,000); market changes since each sale (1% a quarter off sales before July); roof and systems ($5,000); condition and updates ($30,000 to $45,000, against this home's full renovation); view or water ($10,000); and seller credits (taken off each sale price). Condition adjustments are based on listing descriptions, not visits, so they are judgment calls.

622 Fernwood Park Blvd — Adjusted $493,900

Sold $505,500 · Apr 24, 2026 · 1,824 sq ft · 4/2 · pool · 0.29 acre · 0.2 mi

Size +$1,800 Larger Corner Lot −$5,000
Market Change Since the Sale −$8,400

- The strongest sale for the seller's price. Fully renovated pool home, very similar to this one, paid in cash with no seller help.
- About the same size. Its larger fenced corner lot, with room for a boat or trailer, is worth a bit more.
- It sold earlier in the year, when rates were lower and homes were moving faster.

516 Tallow Ct — Adjusted $484,000

Sold $495,000 · Jun 26, 2026 · 1,865 sq ft · 4/2 · pool · 0.22 acre · 0.3 mi

Size −$1,200 Documented Recent Systems −$5,000
Market Change Since the Sale −$4,800

- Same era and nearly the same size. Sold above asking within a week.
- It came with a documented recent roof, AC, electrical and windows. We don't yet know the age of this home's AC, electrical or windows, so that home gets a small edge.

745 Little Heron Cir — Adjusted $469,800

Sold $427,000 · Aug 20, 2026 · 1,871 sq ft · 4/2 · pool · 0.22 acre · 0.5 mi

Seller-Paid Costs −$500 Condition: Original +$45,000
Size −$1,700

- The most recent pool-home sale in Fernwood Park, and it sat for a while before it sold.
- Described as well maintained but not renovated, so it's adjusted up for the renovation this home has.

602 Thrasher Ln — Adjusted $440,200

Sold $429,000 · Apr 27, 2026 · 1,849 sq ft · 4/2 · pool · 0.22 acre · 0.1 mi

Seller-Paid Costs −$12,000
Condition: Updated Kitchen +$30,000
Market Change Since the Sale −$6,800

- Same size and likely the same floor plan, one street over.
- The seller paid part of the buyer's costs, which comes off the price.
- Partly updated (new appliances, stone counters) but not a full renovation.

621 Little Heron Rd **Adjusted $435,900**

Sold $465,000 · Jun 18, 2026 · 1,865 sq ft · 4/2 · pool · 0.41 acre · 0.4 mi

Seller-Paid Costs −$13,071 Larger Canal Lot −$10,000 Size −$1,229 Market Change Since the Sale −$4,800

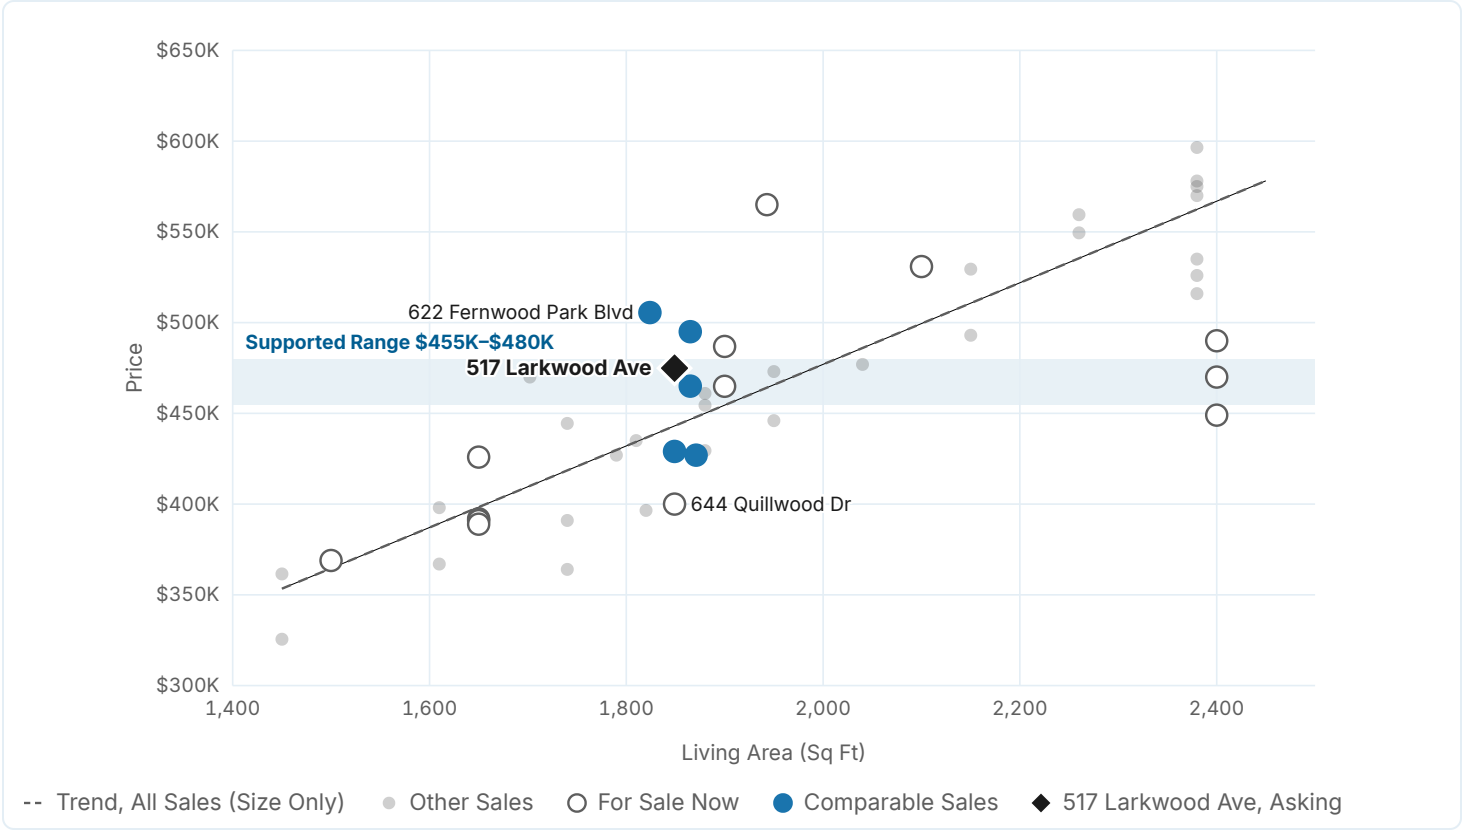

- A renovated pool home with new windows, listed at almost exactly this home's original price.
- The seller paid part of the buyer's costs, which comes off the price.
- It sits on nearly twice the land, backing onto a canal, which buyers pay more for.

Sale	Sold For	Seller Paid	Adjusted Value
622 Fernwood Park Blvd	$505,500	$0	$493,900
516 Tallow Ct	$495,000	$0	$484,000
745 Little Heron Cir	$427,000	$500	$469,800
602 Thrasher Ln	$429,000	$12,000	$440,200
621 Little Heron Rd	$465,000	$13,071	$435,900
This Home (Asking)	**$474,900**	**—**	**Range $455K–$480K**

We lean toward the middle because the two highest sales are the best condition matches but come from a stronger market, while the lowest two needed the biggest adjustments. Other Fernwood Park sales support the same picture.

The Whole Neighborhood at a Glance

Every recent sale and listing in the MLS records from 1,100 to 2,600 sq ft, plotted by size and price.

One home far larger or smaller than this one is left off the chart.

At $474,900, this home is asking about $32,000 more than its size alone predicts.

The dashed line shows what homes here sell for based on size alone. Homes above it sold for more, usually because of condition, updates or the lot. Its condition and features have to justify the difference.

Size alone explains most of the differences in sale prices here, so the dashed line isn't a value estimate for this home. It lumps dated homes and homes without pools together with renovated ones. The renovated comparable sales sit well above it, and a renovated listing of the same size without a pool is for sale well below.

What Else Is Out There

These are the homes this seller is competing with right now. Several have been sitting, and most have cut their price.

Address	Status	Price	Sq Ft	Pool	Days	Notes
644 Quillwood Dr	For sale	$400,000	1,849	No	91	Fully renovated, same size, with an extra half bath and a recent price cut. Even after a pool, it's a strong alternative.
394 Tansy Ln	For sale	$565,000	1,943	Yes	57	Updated, new roof and windows, solar. Not selling at this level.
626 Primrose Ln	For sale	$470,000	2,400	Yes	302	Larger but dated, and cut once already; a motivated seller.
656 Little Heron Rd	For sale	$449,000	2,400	Yes	51	An extra bedroom, a light fixer, tri-level.
513 Birchcrest St	For sale	$490,000	2,400	No	63	Remodeled, replumbed and rewired.
412 Calloway Ave	Under contract	$454,900	1,458	Yes	9	Renovated and went under contract within days. A renovated pool home priced like this one moves fast.
400 W Kumquat St	Under contract	$449,000	1,682	Yes	14	Dated, large lot, a bit farther away.
621 Elderberry Ln	Expired	$389,999	1,849	No	114	Same size in Fernwood Park. It started higher and never sold.

The Market Right Now

33 sales in the MLS records closed from Apr 8, 2026 to Sep 15, 2026. 14 other homes are for sale now, 3.5 months of supply at the recent pace of sales.

	April–June	July–September
Homes Sold	24	9
Median Sale Price	$467,500	$461,000
Median Sale vs. Original Asking	98.7%	93.9%
Median Days on Market	8 days	22 days
Sales with Seller-Paid Buyer Costs	50%	89%
Median Seller-Paid Amount	$8,250	$12,100

- **Homes are selling under their original asking price**, compared with full price earlier in the year. Sellers are now expecting to negotiate.
- **Inventory is balanced.** That's neither a buyer's market nor a seller's market, but it has shifted toward buyers, and most current listings have already cut their price.
- **Mortgage rates are up** from the earlier sales. That's the main reason the earlier prices are harder to repeat now.
- **Price per square foot.** This home asks more per square foot than most Fernwood Park sales. That's supportable for a renovated pool home, but only a couple of sales have been higher.

What It Actually Costs

Your Tax Bill Will Be Higher than the Listing Shows

The listing shows $2,731 in taxes for 2024, the current owner's bill. In Florida, a home's taxable value resets when it sells, so your bill will be based on roughly what you pay. You can file for your own homestead exemption.

Taxes at a $474,900 Purchase (Asking), With Homestead	Yearly	Monthly
Seller's Current Bill (2024)	$2,731	$228
Your Bill if the Home Is in Unincorporated Seminole County	**≈ $5,932**	**≈ $494**
Your Bill if the Home Is Inside Casselberry City Limits	**≈ $7,838**	**≈ $653**

Your first year matters. Your lender will likely set up your escrow using the seller's lower bill. When your own bill arrives, your monthly payment can rise to cover the difference. Budget for your own bill from the start.

Insurance

The main things that drive the cost for this house are the roof's age, the original construction (especially the wiring and plumbing), wind-mitigation features and the pool. Get a flood quote with the homeowners quote, and a real quote during your inspection period, after the four-point and wind-mitigation inspections.

Estimated Monthly Payment

Three ways to finance this home, at a 6.95% 30-year fixed rate (the Freddie Mac weekly average for September 17, 2026). Your lender will give you exact numbers.

Per Month, at $474,900 (Asking)	Conventional, 5% Down	FHA, 3.5% Down	Conventional, 20% Down
Cash for Down Payment	$23,745	$16,622	$94,980
Closing Costs	$14,247	$14,247	$14,247
Cash to Close	$37,992	$30,869	$109,227
Principal and Interest	$2,986	$3,087	$2,515
Property Taxes (City, With Homestead)	$653	$653	$653
Homeowners Insurance	$300	$300	$300
Flood Insurance	Get a Quote	Get a Quote	Get a Quote

Per Month, at $474,900 (Asking)	Conventional, 5% Down	FHA, 3.5% Down	Conventional, 20% Down
Mortgage Insurance	$188	$210	$0
HOA / CDD	$0	$0	$0
Estimated Monthly Total	**$4,127**	**$4,250**	**$3,468**
If Unincorporated Instead	$3,968	$4,091	$3,309

Every $10,000 off the price lowers the payment by about $80 a month.

Price vs. Seller Credit

The seller cares about what they net; you may care more about the cash you need at closing. These offers have about the same price minus credit, split differently between price and a credit toward your closing costs.

Same Price Minus Credit, Split Differently	$449,000	$454,000 + $5,000	$459,000 + $10,000
Purchase Price	$449,000	$454,000	$459,000
Seller Credit Toward Your Costs	—	$5,000	$10,000
Price Minus Credit	$449,000	$449,000	$449,000
Loan Amount	$426,550	$431,300	$436,050
Down Payment	$22,450	$22,700	$22,950
Closing Costs	$13,470	$13,620	$13,770
Seller Credit Applied to Costs	—	−$5,000	−$10,000
Cash to Close	**$35,920**	**$31,320**	**$26,720**
Monthly Payment	$3,916	$3,957	$3,997
Extra per Month vs. No Credit	—	+$41	+$81
Years for the Extra Payment to Add Up to the Cash Saved	—	about 9 years	about 9 years
Most a Seller May Contribute (Conventional, 5% Down)	$13,470	$13,620	$13,770
Room Below the Median Adjusted Comp ($469,800)	$20,800	$15,800	$10,800

Each $5,000 of credit saves about $4,600 at closing and adds about $41 a month. A credit is worth it if cash is tight or you might sell within a decade, and less so if you have savings to spare and plan to stay long term.

Or use the credit to lower your payment instead. A 2-1 rate buydown at $459,000 would cost about $10,100, more than the $10,000 credit, so the seller would need to contribute more or you would cover the difference.

Notes and Assumptions

- The parcel's taxing district isn't confirmed: the payment uses the City bill, the higher of the two, until it is.
- Tax estimates assume the county values the home at the purchase price; it often values homes somewhat lower, so treat them as the high end. Flat assessments (garbage and other non-ad valorem charges) aren't included.
- Payments assume private mortgage insurance of about 0.5% a year at 5% down (less with more down, none from 20%); and FHA mortgage insurance of 0.55% a year with the 1.75% upfront premium added to the loan: estimates by down payment, not loan quotes.
- Tax estimates use 13.6790 mills in Unincorporated Seminole County and 18.1808 mills Inside Casselberry City Limits.
- File for homestead by March 1 of the year after closing.
- Portability isn't included: a buyer leaving a homestead in this state may carry part of its capped difference, which can lower the first bills (ask the property appraiser).
- Homeowners insurance uses $3,600 a year, the figure given for this home.
- Closing costs are 3% of the price, as given.
- Flood zone X: a lender may not require flood insurance, but a Citizens policy on a home with a dwelling replacement cost of $400,000 or more must carry flood insurance, and from January 1, 2027 every Citizens policy must (s. 627.351(6)(aa)). Get a quote; the total leaves it out until then.
- A seller credit can only pay actual closing costs, prepaid items and escrows; any part above those costs is lost, and it can never be taken as cash. Seller-contribution limits: conventional 3% of price below 10% down, 6% at 10–25% down, 9% at 25% or more; FHA 6%; VA 4% in concessions plus normal closing costs. Confirm with your lender.
- The seller doesn't net exactly the same at each split: each extra $10,000 of price also costs them about $70 in transfer tax, plus their listing fee's share.

Things to Look Into

> **The roof.** The first version of this listing described a brand-new roof. The current listing doesn't mention the roof at all. Roof age is the biggest factor in insuring a Florida home, so we want the permit and date in writing.

> **Why the last contract fell apart.** If a previous buyer walked away over an inspection or appraisal problem, we want to know what it was.

> **Original wiring and plumbing.** Homes of this era in Fernwood Park often have aluminum branch wiring and original cast-iron drains. Insurers ask about both. Add a sewer-line camera inspection to the general inspection.

> **Permits for the renovation.** Confirm the kitchen, bath, and any electrical or plumbing work was permitted. Unpermitted work can cause problems with insurance and future resale.

> **The fourth bedroom.** Check that the property appraiser's record shows four bedrooms, and if a room was converted, confirm it was permitted.

> **AC age and pool equipment.** Neither is listed. Also confirm the pool has a compliant safety barrier.

> **"As-Is" doesn't mean no inspection.** The As-Is contract still gives you an inspection period in which you can cancel for any reason. It only means the seller isn't committing to repairs.

Questions for the Listing Agent

1. When was the roof replaced? Can you share the permit and a copy of the roof, four-point or wind-mitigation report?
2. Why did the last contract fall apart, and were there inspection or appraisal reports from that buyer?
3. How old are the AC and the pool equipment? Does the home have aluminum branch wiring, and what brand is the electrical panel?
4. Were the kitchen, bathroom, and any electrical or plumbing updates permitted?
5. Is the fourth bedroom original to the house?
6. Is the seller open to contributing toward the buyer's closing costs?

How This Was Prepared

Sales: 33 closed sales from Apr 8, 2026 to Sep 15, 2026, plus 14 active, 2 pending and 1 expired or canceled listings, from MLS records.

Also: the Stellar MLS listing and its full price history, the Seminole County Property Appraiser's final millage rates and the Freddie Mac weekly mortgage rate survey.

Market conditions change, so refresh this analysis if no offer is made within a few weeks.
